The RA Beauty Retouch Panel 3.1 is designed to color correct and enhance the beauty of images in Adobe Photoshop CS4, CS5, CS6, CC, and CC 2018. It's still possible to use this panel in Photoshop (2018) 64-bit on Mac OS or Windows if you're running Photoshop (2018) 32-bit on Mac OS X or Windows 7/8/10. This article will show you how to get the RA Beauty Retouch Panel 3.1 installed in your 64-bit version of Photoshop so that it will run using Pixel Juggler for PS 2018 64 bit. This is a very simple process. You'll need a 3.1 version of the Adobe Photoshop CS6 installer which you can get from the Adobe website. Installing this new version on your system will give you a new plug-in called "Pixel Juggler for PS 2018 64 bit" which is compiled with the latest versions of all the plug-ins that were once in Photoshop CS7 and Photoshop CC as well as the RA Beauty Retouch Panel. You'll then want to download and install Pixel Juggler from PixelJuggler.com onto your system as shown at the bottom of this article. Pixel Juggler will allow you to run your current 32-bit version of Photoshop (2018) with your 3. 1 version of the Adobe Photoshop CS6 installer. Once you have these two installs done, you'll be ready to get your 3.1 version of Photoshop installed in your 64-bit Photoshop (2018). When Pixel Juggler is running, it will act as if it's always running. It synchronizes all your 32-bit installs to make sure that any changes you make will be instantly reflected in Photoshop (2018) 64-bit. When you launch your 32-bit version of Photoshop (2018), everything will sync. This way, if you make a change in one, it will be instantly reflected in the other. As far as the installation process is concerned, it's very simple. You'll need to download and install your 3.1 version of Photoshop CS6 from Adobe's website and then find Pixel Juggler for PS 2018 64 bit on PixelJuggler.com and install that too. Your 64-bit version of Photoshop (2018) software should now be ready to use with any old 32-bit plug-ins which you may have installed or bought recently . These plug-ins have been thoroughly tested with Pixel Juggler for PS 2018 64 bit and should work flawlessly. If you need any more information on how to get this to work please contact RA-Associates at . This version [v 3.1] of the RA Beauty Retouch Panel is compatible with Adobe Photoshop CS6, CC, and CC 2018 in either Mac or Windows. If you're using a Mac in 32-bit mode, it will also function in the 64-bit version of Photoshop (2018). This is done using a special plug-in, called Pixel Juggler for PS 2018 64 bit which is available at PixelJuggler.com.
